

Call Waiting ID

Call Waiting ID allows the customer to control the disposition of incoming calls during an off-hook condition, via a visual display unit.

Additionally, it allows for the automatic delivery of a calling party's name and/or telephone number (excluding non-published and non-listed telephone numbers) to the called customer, which gives the called customer an opportunity to decide whether to answer the call immediately or not. The name and number are displayed on customer provided equipment.

The name displayed shall be the name associated with the calling telephone number as shown on the Company's records. The Company, in its discretion, may abbreviate or limit that name for display purposes. The Company does not assure name accuracy, and it shall not be liable to any party for errors, or omissions. The Company's sole and only obligation shall be to reasonably correct errors in names when notified of such errors.

Customers who do not wish to receive blocked calls can activate Anonymous Call Rejection by pressing *77 (1177 on rotary phones). The code to deactivate is *87 (1187 on rotary phones). While the feature is activated, incoming blocked calls are routed to an announcement in the central office.

Nemont employees work at the text messaging competition at our local fair.
