

Caller ID Name & Number

When you receive a call, the name and number of the person calling you is shown on your Caller ID display screen. A Caller ID box or Caller ID phone is needed for this feature.

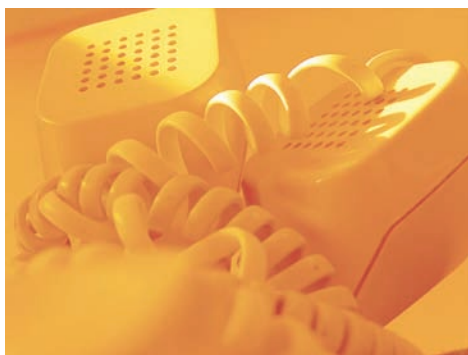

How to use:

1. When you receive a call, wait until your telephone completes the first ringing signal.
2. The telephone name and number calling you — associated with that number in telephone company records — will automatically appear on your display screen.
3. If you choose to answer the call, the name and number will remain on the screen until you, or the caller, hangs up.

Notes: Subscription to Caller ID Number service requires the purchase of a display telephone or an add-on display unit.

*If a letter "P" or "Private" appears on your display after the first ring, the caller may have blocked the display of their number by pressing *67 (or dialing 1167 on a rotary phone) before placing the call. You can choose whether or not to answer the call.*

If "unknown name", "unknown number", "out of area", or "0" appears, the caller is in an area that does not support Calling Number services.
